DASHBOARD

## Final Project: Analyze the New York Subway System

**Note: These instructions only apply to Udacity students with a paid subscription for this course.**

CLASSROOM

Here's what you should do:

1. Complete all of the questions in Problem Sets 2 through 5 in the [Intro to Data Science course](#)
2. Answer these [short questions](#) in a pdf or html document. Please do not use doc or docx format because there are compatibility issues across browsers. If you are using a word processing program such as Microsoft Word or LibreOffice, once you are done, save the file as pdf and include it in your submission.

MATERIALS

DISCUSSION

If you have a paid subscription to this course, please save your answers as a pdf document, self-evaluate your work with the Project Rubric, and email your written responses to [introds-project@udacity.com](mailto:introds-project@udacity.com).

OVERVIEW

### Important Resources

- [Final Project Description](#)
- [Project Rubric](#)
- [Submission Information](#)

If you have any questions about the project, don't hesitate to talk to your coach. Good luck!
